CMCC Doc. No. 151X5.720

Copy 1 of 6
Page 1 of 1

Dear Dan:

Enclosed is our proposal covering support for the System 2 evaluation tests at [REDACTED] which Matt discussed with Scotty and Gene last Friday, September 13th.

25X1A

This program consists of two (2) weeks preliminary testing followed by seven (7) weeks of evaluation. We plan to assign one man to the airborne phase and two men to the Seal Beach ground based phase of the program. The wage rates shown are the actual rates of pay of the men we plan to assign. The two men who will work at Seal Beach will commute daily, thus adding two and one-half hours to each working day. The premium costs for this overtime will be charged to overhead. In addition to labor, we included the cost of re-orienting the Seal Beach antennas for the evaluation and then returning them to their original position on the completion of the program.

25X1A

The total estimated cost of this program is [REDACTED]
The fixed fee is [REDACTED] The total
cost including fee is [REDACTED]

25X1A

25X1A

A copy of this letter is enclosed for Scotty.

Sincerely,

Dean
